Program Eligibility

Definition:

Agricultural lime, often called aglime, is a soil amendment produced from crushed or pulverized limestone (calcium carbonate) or dolomite, used to reduce soil acidity and raise pH levels.

Purpose:

Neutralizes acidic soils, reducing aluminum or manganese toxicity while promoting microbial activity. Increases crop yields, improves fertilizer efficiency, and boosts nitrogen fixation in legumes.

Policies for Practice:

1. Applicant must be a district cooperator.
2. W-9 tax form is required with application for district tax purposes.
3. Cost Share is available to owner and/or lessee.

4. Applicants are ineligible for practice reimbursement if he/she starts project before district approval.
5. Applicants must provide a map identifying fields and acreages.
6. WVCA standards and specs must be followed.
7. Approval will be considered on a continuous basis.
8. Application approvals will be based on ranking form and availability of funds.
9. After approval, applicant must follow job sheet provided at the time of signing contract.
10. Invoices must be submitted by June 1, 2027.

Practice Specifications:

1. Current soil tests (within the past 3 years) are required and must come from a certified laboratory.
2. Soil samples may be taken by any qualified or approved person, including the farmer.
3. Only state registered (with the WVDA) Ag Lime and purchased Ag Bulk Lime may be used.
4. Lime must meet state agriculture registration requirements to be approved.
5. Field eligible will be on a 3-year rotation for application.

Payment rates & limits:

1. The maximum cost-share for this practice shall be a 50% rate up to $50/ton.
2. Cost-sharing is authorized for Lime of necessary requirements of permanent grasses, legumes, on Hayland, and Pasture Lands.
3. The payment will be made after paid invoices are received, cooperator completes w-9, and a verification site visit has been completed.
4. No duplication of federal and state cost share shall be allowed.
